The CCP13 Committee Members 2
Chairman's Message 3

Meeting Reports

CanSAS II, T. Irving 4
SAS99, XIth International Conference on Small Angle Scattering, N. Terrill 5
CCP13 and NCD Training Workshop, M.W. Shotton 6
Denver X-ray Conference, J.P.A. Fairclough 7
8th Annual CCP13 Workshop, R.C. Denny 8

Technical Developments

Beamline 14 and the Opportunities for Fibre Diffraction, E.M.H. Duke 11
POLO Detector: 5 CCD SAXS/WAXS area detector for Synchrotron Radiation, J.P.A. Fairclough *et al.* . . 12
CCP13 Software Development, M.W. Shotton *et al.* 14
Summary of Available CCP13/NCD Software 20

Contributed Articles

Lessons for Today and Tomorrow from Yesterday, S. Arnott 21
X-Ray Studies on Biological Fibres, A. Miller *et al.* 27
Unravelling Starch Granule Structure with Small Angle Scattering, A.M. Donald *et al.* 31
Structure of Block Copolymer Solutions, T. P. Lodge *et al.* 37
The Crystal Structure and Hydrogen Bonding System in Cellulose from Neutron Fibre Diffraction Data, P. Langan *et al.* 42
Chromatin Higher-Order Structure: Results from Small-Angle X-Ray Scattering and Histone-Octamer Crystallography, J. Kilner *et al.* 48
Real time FTIR and WAXS studies of the drawing behaviour of polyethylene terephthalate fibres, A.C. Middleton *et al.* 53

8th Annual Workshop Prize-Winning Posters

An XRD Study of the Rigid-Rod Polymer Fibre M5 (PIPD), E.A. Klop *et al.* 58
X-Ray Analysis of the network-forming collagen in the Dogfish *Scyliorhinus Canicula* Egg Case, C. Knupp *et al.* 61
